

To Infinity & Beyond

Curriculum
News Year
Six

Objectives include:

To understand the relationship between the Earth, Sun and Moon and how this affects day, night and the seasons.

To understand how shadows change.

To understand what different forces are and how they affect our world (eg. gravity and friction).

Literacy objectives include:

To understand Science Fiction as a 'genre'.

To know how to write a powerful description and apply this in their own writing.

To recognise the features of a newspaper.

Numeracy objectives include:

To multiply and divide larger numbers.

To read co ordinates in 4 quadrants.

To understand fractions, decimals and percentages.

To read and understand different types of data.

A highlight of the topic is to present creative designs, imaginative descriptions and personal topic based research.

You can help by:

Ensuring your child regularly practises and learns their tables - multiplication and division facts such as:

$$7 \times 8 = 56 \quad 56 \div 7 = 8 \quad 57 \div 8 = 7 \text{ r}1$$

Ensuring your child is reading regularly and completes their spelling sentence homework.

My Targets this term are:

Individual targets will be brought home by your child.
