

Online Safety Workshop

FOR PARENTS AND CARERS

A Common Sense Approach to Online Safety!

We are delighted to invite Traci Good, an Online Safety Trainer into school to deliver a fun and informative session to parents and carers, around keeping your children safe online.

Traci has been working with schools for a decade and has seen many changes over this time. She has a good grasp of the risks that our children face as well as some simple tips on how we can support our children to get the best from the internet.

Traci says

“This certainly is not a session where I tell you how to parents your children! My role is to give you the most up to date information around apps, parental controls and where to go if things go wrong. The internet and associated tech can be a brilliant tool if used sensibly, so if you don’t know your Tik Tok from your Twitch, have never heard of ‘Own It’ and didn’t know that you can get a professional to help set your parental controls FOR FREE then I urge you to come along... I almost guarantee that you will learn something new”.

As a school we provide a lot of education to your children around staying safe online, we would like to extend that offer to you.

Our session will be held on:Date:

Tuesday 28th January

Time: 1pm to 3pm

Location: Brockwell Junior School

Please note this session may contain discussions of an adult nature content that would be unsuitable for children.

Questions?

If you have any concerns or worries you would like Traci to cover during the session, or if you have a question to ask but would rather not ask it out loud, please feel free to complete the slip below and send your suggestion or question into school prior to the session. These will be answered confidentially.

My question or suggestion is:
